View Box (Rfx no. 3000002868)

Sl. No.	Ref. to the Bidding Document	Specification/Clauses in the Bidding Document	Bidder	Queries/clarifications asked by Bidders	Recommendations/ replies by the Committee
Technical Terms					
1	Page no 53 Point no 7	It should have an on-off switch along with digital feather touch dimmer and a button to set the intensity	MEX INDIA	It is suggested to delete this point and part of it may be merged with point number '8'. Justification: As this point contradicts with point number '8', therefore, it is suggested to delete this point and part of it may be merged with point number '8'.	To be amended as - " It should have an on-off switch along with digital feather touch / rotary dimmer to set the intensity. "
2	Page no 53 Point no 8	It should have fully electronic continuous brightness control, with adjustment range of approximately 90%.	MEX INDIA	This point may be modified as "it should have separate onoff switch and separate fully electronic continuous brightness control with adjustment range of approximately 90% for each film panel at the bottom of each film section for convenient operation." justification: For perfect reading of film and to reduce the glare on eyes, it is suggested to have separate onoff and separate dimmer for each film section. These controls are ideally placed at the bottom of each for convenient of user.	No change
3	Page no 53 Point no 12	10 step Digital dimmer facility with step up/step down intensity of 400 LUX.	MEX INDIA	it is suggested to delete this point. Justification: As this point contradicts with point number '8', therefore, it is suggested to delete this point.	To be amended as - " DELETED"
