

**Schedule No. 02 - HDR Brachytherapy System (Rfx no. 3000002259)**

Sl. No	Tender Page & Para	TENDER SPECIFICATION	NAME OF THE FIRM	REPRESENTATION RECEIVED FROM THE FIRMS	COMMITTEE RECOMMENDATION
	Page 75 Para 2.1	<b>2. Radioactive Source</b> 2.1 The system should use radioactive sources of Ir-192	Kirloskar	The system should use radioactive source of Ir-192/co-60	no change
	Page 75 Para 2.2	<b>2. Radioactive Source</b> 2.2 source strength should be of at least 10Ci Ir-192	Kirloskar	Source strength should be of at least 10Ci Ir 192 / 2Ci (74GBq) for Co-60 Source	no change
1	Page 77 Para 5.8	<b>5.8 Breast and Prostate templates – 2 sets each</b> (i) Biliary Applicators – 2 Each (ii) Intrabronchial Applicators (reusable) – 4 sets (iii) Brain Applicators (Gliaste) – 10 each	Elekta	<b>Request you to kindly delete.</b> (i) Biliary Applicators – 2 Each (iii) Brain Applicators (Gliaste) – 10 each <b>Reason :</b> The above three applicators not manufactured by ELEKTA.	<b>5.8 Breast and Prostate templates – 2 sets each</b> (i) Biliary Applicators – 2 Each (ii) Intrabronchial Applicators (reusable) – 4 sets
2	Page 77 Para 5.12	<b>5.12.</b> Vienna Applicator or its equivalent for combined interstitial and intracavitary application-2 sets <b>Balloon based Breast applicator-total 5 numbers.</b>	Elekta	<b>Request you to kindly delete.</b> Balloon based Breast applicator-total 5 numbers. <b>Reason :</b> The above three applicators not manufactured by ELEKTA.	<b>5.12.</b> Vienna Applicator or its equivalent for combined interstitial and intracavitary application-2 sets
3	Page 77	<b>5. Applicators for HDR Unit</b> <b>5.14.</b> Vendor should provide one extra treatment control console system which will be compatible with offered HDR treatment machine for the purpose of performing intraoperative HDR brachytherapy treatment.	Varian Medical Systems	To be clarified	clarified during pre-bid meeting
4	Page 79 Para 7.5	<b>7.5 Source: (i) minimum 15 sources (Ir-192 source)</b> should be offered for 5 years period (one source in every four months interval or as and when required) to maintain HDR treatment delivery. The 15 sources cost should be quoted separately and this will be considered for L1 calculation. Loading of new source and unloading of the decayed source, source transportation, source export and disposal will be part of the offer.	Elekta	<b>Requested Change</b> Kindly change Source: (i) minimum 10 sources (Ir-192 source) should be offered for 5 years period (one source in every four months interval or as and when required) to maintain HDR treatment delivery. The 10 sources cost should be quoted separately and this will be considered for L1 calculation. Loading of new source and unloading of the decayed source, source transportation, source export and disposal will be part of the offer. <b>Reason:</b> One source will last for 6 months whatever will be the workload and therefore 10 sources each are good enough to cover 5 years warranty and 5 years CMC respectively.	<b>7.5 Source: (i) minimum 10 sources (Ir-192 source)</b> should be offered for 5 years period (one source in every four months interval or as and when required) to maintain HDR treatment delivery. The 10 sources cost should be quoted separately and this will be considered for L1 calculation. Loading of new source and unloading of the decayed source, source transportation, source export and disposal will be part of the offer.
5		Suggested by Bidder	Elekta	<b>Turnkey</b> Kindly add "The required Power for machines will be terminated by Hospital in Control room in Proper switch and panel as applicable". <b>Reason:</b> To define user responsibility clearly.	clarified during pre-bid meeting.
